A sum of £1,187 15s. 0d. was allocated in bonuses to schools for choirs and orchestras which were favourably reported on by the examiners in Practical Music, and which fulfilled the conditions laid down for the examination in that subject. This examination was held for the first time in 1904.

Inspection.

The Board desire again, as in their Reports for 1902 and 1903, to bring prominently under the notice of your Excellency the necessity, in the interests of Intermediate Education, of bringing into operation at as early a period as may be possible an efficient system of inspection by the appointment of a staff of permanent inspectors.

Your Excellency has been made aware of the strong opinion entertained by us that the present system, which makes the distribution of the School Grant dependent solely upon the results of the general examination, is injurious to Intermediate Education, and of our efforts during the last seven years to procure such an alteration of that system as will permit portion of the grant to depend on the efficiency of the schools as ascertained by inspection.

Such an alteration could not have been effected without an Act of Parliament. Accordingly, chiefly with a view to procure this reform, the Board applied in the year 1898 to His Excellency the late Lord Lieutenant to appoint a Commission to inquire into the working of the Act of 1878; and that Commission having reported, *inter alia*, in favour of the suggested change, an amending Act of Parliament was passed in 1900 enabling effect to be given to the recommendations of the Commission, and rules under that Act authorising the important change in question were approved of by His Excellency.

There remained, however, the appointment of Inspectors; and as, under the Act of 1878, the approval of His Excellency and of the Commissioners of His Majesty's Treasury is necessary to the appointment of officers of the Board, it was

necessary that a scheme providing for the system of inspection should be prepared by the Board and submitted for the approval of His Excellency.

After an experience acquired by the appointment (with the approval of His Excellency Earl Cadogan) of six inspectors for one year, the Board, so far back as the 30th June, 1902, submitted to him their proposed scheme of permanent inspection; but unfortunately he quitted office before this scheme had received his approval.

After the appointment of Your Excellency, we, on the 10th October, 1902, directed the attention of the late Under Secretary to the scheme, and pressed its early consideration, as the appointment of Inspectors was a condition precedent to putting into operation the changes recommended by the Commission, and authorized by Parliament.

It is unnecessary to advert in detail to the correspondence which ensued. It is sufficient to say that, during the two and a half years which have since elapsed, the details of the scheme have remained unconsidered.

This result has not ensued by reason of the disapproval of Your Excellency of the principle upon which we insist, and which we have so long vainly endeavoured to carry into effect. On the contrary, as stated in the letter of the Under Secretary of the 5th December, 1902, "The Irish Government was entirely in favour of a system founded mainly on inspection as distinguished from a system founded mainly on examination."

Your Excellency's refusal to recommend the scheme to the Treasury rested on two grounds. In the first instance it was based upon the recommendation not being accompanied by a proposal for reducing the expenditure for examination by an amount equivalent to that required for inspection.

To this objection we, by letter of 24th October, 1902, replied that, consistently with our Acts of Parliament, we could not lawfully dispense with the examination by reason of the introduction of inspection. Our original Act founded a system based entirely on examination—an examination which should be available for all students who fulfilled the prescribed conditions and who chose to present themselves. The Act of 1900 did not authorize the abolition of this examination or its limitation to any particular class of students. Whilst it authorized inspection it did so as supplemental to, not as a substitute for, examination. The introduction of a system of inspection might be expected to lead to a reduction in the expense of the annual examination of students; but it is obvious that such a reduction could not be effected in the first instance. The letter of the Under Secretary in answer, dated 5th December, 1902, did not question the conclusiveness of this reply, but stated that Your Excellency thought it best that the matter should stand over till next year to admit of its fuller consideration in connexion with other educational questions.

Assuming (as we stated in our reply) that legislation would

be necessary to give effect to the views of Your Excellency, we agreed to this suggestion, and accordingly proposed that provision should be made for inspection during the then current year by the reappointment for that year of the temporary Inspectors who had acted previously to the submission of the scheme of the 30th June, 1902. This proposal was subsequently sanctioned by Your Excellency, and there the matter rested till the termination of the school year 1902-3.

On the 29th June, 1903, in anticipation of the commencement of the next school year, we passed, and on the 6th July transmitted to Your Excellency, the following resolution:—

“That the Board desires to impress upon the attention of His Excellency the Lord Lieutenant the great urgency of appointing permanent Inspectors as a necessary part of the reforms aimed at by the Act of 1800; and further to say that it is a matter of supreme importance that the appointments should be made with the least possible delay, with a view to the inspection being carried out in a thorough and comprehensive way, and with fairness to the schools. The Board are of opinion that the system of inspection affords one of the most valuable agencies placed in their hands by Parliament for improving the education of the country. They would also point out that under the Rules approved by His Excellency a portion of the School Grant is made to depend on the Reports of the Inspectors; and it will not be possible to carry out this provision unless the appointment of the Inspectors is made at an early date.”

As we received only a formal acknowledgment of this resolution during a period of upwards of three months, on the 27th October, 1903, we again invited Your Excellency's attention to the resolution.

In reply to this letter Your Excellency, by letter of 28th November, 1903, sanctioned the continued employment during the year 1904 of six temporary Inspectors. At this time, the period during which Your Excellency by letter of the 5th December, 1902, had asked that the matter should stand over had elapsed, and as we were of opinion that such continued temporary appointments of Inspectors at a daily wage were inexpedient and would not satisfy the exigencies of the position, we declined to avail ourselves of this permission. Our objections to such temporary employment were two—(1) because the best men could not be procured on those terms, (2) because prolonged experience acquired in the actual service of inspection would be essential to perfect the system which we had in mind to adopt, and such experience could not be obtained by this makeshift temporary employment.

Early in 1904 we were informed of the second ground of Your Excellency's refusal, viz., that the question of establishing a system of inspection conducted by a staff of permanent Civil Servants would not be entertained until the parts which examination and inspection should play in the distribution of State aid in the schools had been settled.

As this question could not be settled otherwise than by statute, we considered it useless after such a letter to further pursue the subject so long as there was an intention on the part of the Government to procure such a statute. But such

a bill was not brought into Parliament during the last Session, and as we believe that any intention of bringing it in during the residue of the life of the present Parliament has been abandoned, we are remitted to the position in which we stood in December, 1903.

Under these circumstances we would respectfully ask your Excellency to consider the details of the scheme submitted on the 30th June, 1902. In your consideration of it we would invite your attention to the fact that, whether the existing statutes regulating the procedure of the Board remain unaltered or are amended during some future Parliament in accordance with the views entertained by Your Excellency, the results ascertained by inspection will remain factors in the determination of portion of the school grant, so that in either event the appointment of permanent Inspectors will be essential.

We have further to observe that however the change proposed may increase, it cannot possibly diminish the work of the Inspectors; and it is, therefore, impossible that it can involve any reduction in their number. Consequently the possibility of Your Excellency's views being hereafter authorized by statute cannot affect the permanence of the position.

In conclusion we beg respectfully to repeat the statement contained in our letter of the 24th October, 1902, that the existing Statutes and Rules impose a legal obligation upon the Board, Your Excellency, and the Lords Commissioners of His Majesty's Treasury, to do, within their respective powers, all that is necessary to give effect to the intentions of Parliament as evidenced by the Act of 1900, and, *inter alia*, to ensure efficient inspection of the schools. This result cannot be arrived at without the approval of Your Excellency and the Lords Commissioners of the Treasury of some scheme of inspection.

Whilst we have done all that in us lay to discharge our part of this obligation, the obligation so far as it rests upon Your Excellency and the Lords Commissioners of the Treasury still remains undischarged.

APPENDIX V.

THE BURKE MEMORIAL PRIZES.

A sum of money, subscribed in memory of the late THOMAS HENRY BURKE, Esq., Under Secretary to the Lord Lieutenant, was transferred by the Burke Memorial Committee, on 18th March, 1884, to the Intermediate Education Board for Ireland, who undertook to administer the Fund in accordance with the following Rules—(the sum funded is £1,222 18s. 11d. Consols):—

I. The annual income from the fund shall be applied in paying three Prizes, one of £16, one of £10, and a second of £10; any surplus or deficiency to be apportioned in the same ratio. If, in the opinion of the Commissioners, sufficient merit be not shown by the Candidates competing to justify the award of any or either of the Prizes, the amount of such Prize may be, at the discretion of the Board, withheld and added to the principal.

II. No student shall be qualified to receive these Prizes except the children of persons who are or have been, in receipt of salary or pension in Ireland, paid out of money derived from Parliamentary Grants, Rates or Taxes, other than members of the Naval or Military Services not being also in Civil employment.

III. The Prizes shall be awarded as follows:—that of £16 to the Boy whom, at the annual Examination in the Junior Grade among Male Candidates qualified in the manner expressed in the next preceding Rule, the Board shall adjudge to have obtained the highest aggregate of Honour marks in the subjects in which he presented himself for examination; One Prize of £10 to the Boy whom, in the same Grade at such Examination, the Board shall adjudge to have obtained the next highest aggregate of Honour marks in the subjects in which he presented himself for examination; and the other of £10 to the Girl whom, at such Examination in the same Grade, among Female Candidates in the manner aforesaid, the Board shall adjudge to have obtained the highest aggregate of Honour marks in the subjects in which she presented herself for examination.

IV. The decision of the Board shall be final and decisive in determining whether the Candidates fulfil the conditions of the third Rule.

V. The Board may deduct all expenses connected with the trust from the yearly income.
